What is the Federal Green Challenge?

On Earth Day 2008, EPA Region 10 challenged ourselves and all of our Region 10 federal partners to reduce our carbon footprint by reducing greenhouse gas emissions by 5% over the next year by managing energy, transportation, waste, and water.

Who can participate?

All federal facilities within Region 10 (Alaska, Idaho, Oregon, and Washington). If you are not a Region 10 federal facility, we encourage you to meet the goals of the Challenge and provide us with information about your goals and accomplishments.

How do you participate?

There are five steps to fully participate in the Challenge:

1. Set a goal of at least a 5% reduction to be achieved in the next year in two of the four challenge focus areas (Energy, Transportation, Waste and/or Water). Goals are due July 1, 2008!
2. Establish a 2006 or 2007 baseline.
3. Work toward meeting your goals for at least 1 year.
4. Measure your results at year's end. Submit your results by June 2009 to get recognized!
5. Share your results with each other and the public and get recognized through the Champions of Green Government Recognition program.

Federal Green Challenge Pledge

Our facility commits to having the Federal Government lead by example by reducing our carbon footprint by 5% over the next year through our management of energy, transportation, waste, and/or water. We will focus on the following two (or more) areas:

Signature of Management Contact _____ Date _____

Your Goals

- ☐ I have filled out my baseline and goals on the opposite side of this form.
- ☐ I will provide my goals by July 1, 2008 and want to participate in the signing ceremony on July 8, 2008 at 1:30 p.m.
- ☐ Please contact me. I would like help setting my goals. Name _____ Phone _____

Submit your Registration Form!

Please submit your completed registration form by email or fax.

By email to R10FederalGreenChallenge@epa.gov or by fax to Melissa Winters at (206) 553-8509. Questions? See www.federalgreenchallenge.net or call Melissa at (206) 553-5180.
